Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Acknowledgement

1. The Preliminary Amendment filed on 6/25/01 has been received and placed of record. Accordingly, claims 1-7 have been cancelled and claims 8-11 are pending in this application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 10 IS rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation of "the code" recited in claim 10, line 5 is vague and indefinite because "a code" as recited in step (a) is one of the orthogonal codes. Only the "another code" recited in step (a) can be either PN code or PN code shifted in phase. Therefore, the recitation of "the another code" is suggested.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the

Art Unit: 2631

treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

5. Claims 8-11 are rejected under 35 U.S.C. 102(e) as being anticipated by

Takahashi et al (5,488,629).

As shown in figures 20(a) and 20(b), Takahashi teaches a CDMA communications system comprising the transmitter (figure 20(a)) and receiver (figure 20(b)) wherein, as depicted in figure 20(a), the first spreading codes are generated by multiplying (3131) the first PN code (3141) by the orthogonal codes (3150) and the second spreading codes are generated by multiplying (3132) the second PN code (3142) by the orthogonal codes (3150). The first and second spreading codes are used to spread (3121 and 3122) the respective first and second information (I and Q information). The receiver as depicted in figure 20(b) is doing the reverse by element (3330).

6. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References Bruckert (5,325,394) and Bustamante (5,548,583) are cited because they are pertinent to the CDMA communications system.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DON N VO whose telephone number is (703) 305-4885. The examiner can normally be reached on 8:30AM-5:00PM, Mon-Fri.
